Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the reference signs mentioned throughout the specification. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "short flow", in claim claims 1 and 6, is a relative term which renders the claim indefinite. The term "short flow" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. The term "short flow" renders the term "grain mill process indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by McLeod (USP 5,795,222). McLeod discloses a method for providing grain milling services in claims 9-12 comprising: transporting a grain milling process having a cleaner to a location; receiving grain into the milling process; and generating a finished product from the milling process.

Claim Rejections - 35 USC § 103

Claims 2-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over McLeod in view of Giguere (USP 5,250,313). McLeod has been described above. McLeod does not disclose: the grain milling process comprises a degerminator; and the grain process can be transported via a truck, train, airborne transport, or waterborne transport. Giguere discloses a grain milling process comprises a degerminator (abstract). It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the grain milling process of McLeod with a degerminator in view of Giguere so that the process can degerminate corn in the instance corn is the material to be processed. Further, McLeod discloses the milling apparatus is mobile by providing wheels (fig. 2) and accordingly, it is obvious that the apparatus is portable and can be suitably transported via truck, train, airborne transport, or waterborne transport.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art listed on the attached PTO 892 are cited to show relevant corn milling processes and mobile grain milling apparatus.
